Hello, Voice Control!

Control your home through Amazon Alexa
using Iddero's Voice Control service

at your command

iddero

Hello, Voice Control!

Iddero Voice Control lets you control your Iddero touch panel or Iddero Home Server through Amazon Alexa. Switch the lights on and off, adjust RGB light colour and intensity, open or close window blinds, or set the room temperature using only your voice. Your house is at your command!
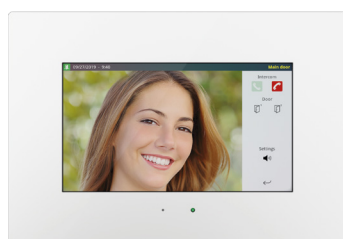

## Compatible Iddero products

VERSO+IP 2   VERSO INDOOR   HC3-KNX   HC3L-KNX   Home Server 3
